

## Club Championships Rules if tied

For the Saturday Club Championships if there is a tie at the end of 72 holes in any grade the players who are tied will then play the below holes in order until a winner is found. This is played as sudden death i.e. if player 1 has a birdie on the first playoff hole and the other/s have a par the player with the lowest score on that hole wins.

First playoff hole: 18

Second playoff hole: 18

If after playing the 18<sup>th</sup> twice and there is still no outright winner, the remaining players will then play in order the below holes from those tee's as sudden death until a winner is found. This will repeat if required until a winner is found.

Hole 1

Hole 17

Hole 18

For the Mid-Week Club Championship in the event of a tie at the end of the final round the winner will be determined via count back, this applies to all grades in the mid-week Championships.
